Color-Safe® PAVEMENT MARKINGS

Durable and High Definition Color

Color-Safe MMA (Methyl Methacrylate) pavement markings are the preferred choice of transportation and safety officials for bus lanes, bike lanes, pedestrian areas, and a variety of special-use marking applications. Vibrant, durable, and cost-effective, Color-Safe creates bright, long-lasting road pavement markings, bringing greater safety to cities and communities.

Easy to apply, with no special equipment needed, Color-Safe has a longer service life than traditional thermoplastic markings. It is a UV stable pavement marking that is capable of full cure in a wide range of temperatures, allowing for a longer marking season.

Color-Safe enhances your safety program with high visibility color and increased service life.

SAFER TRANSPORTATION THROUGH INNOVATION

Color-Safe®

PAVEMENT MARKINGS

Features and Advantages

- Excellent color retention and durability
- High visibility color increases motorist awareness
- Available in a variety of colors
- Easy application
- Fast cure time (30 min at 70°F)
- Wide application temperature range (40° - 100°F)
- Low life cycle cost
- Ability to adhere to both concrete and asphalt surfaces

Color-Safe is applied by either the mixed resin and aggregate method or the spray/broadcast aggregate method. No special equipment or heat is required for installation.

Applications

Color-Safe can be used with different sizes and types of skid resistant aggregate and with the addition of glass beads that can be easily modified to suit most marking needs.

- Bus lanes
- Bike lanes and bike boxes
- Pedestrian refuge areas and plazas
- Crosswalks and decorative pavements
- Industrial safety markings
- Roundabouts
- Toll lanes
- Airfields

Standard and Custom Colors

Color-Safe has many standard color options below, as well as custom colors available upon request.

- | | |
|-------------------|--------------------|
| • Bike lane green | • Toll lane purple |
| • Bus lane red | • Orange |
| • Traffic yellow | • Buff |
| • White | • Black |
| • Handicap blue | • Gray |
| • Adobe red | • Pink |
